K-Electric Limited

OVERVIEW OF THE INSTITUTION	RATING RATIONALE
<p><i>K-Electric Limited was incorporated as a limited liability Company in 1913. It is a vertically integrated power utility responsible for generation, transmission and distribution of electricity in Karachi and its adjoining areas. KES Power is the major shareholder of the Company.</i></p>	<p>Corporate Profile:</p> <p>K-Electric Limited (“KEL” or “the Company”) was incorporated as a limited liability company in 1913, and its shares are quoted on the Pakistan Stock Exchange Limited (PSX). The registered office of KEL is in Karachi.</p> <p>KEL is the only vertically integrated power utility in Pakistan, managing all key areas – Generation, Transmission, Distribution and Supply – ensuring energy delivery to customers within its licensed areas. The majority shares (66.4%) of the Company are owned by KES Power, a consortium of investors including Al-Jomaih Power Limited of Saudi Arabia, National Industries Group (Holding), Kuwait, and the Infrastructure and Growth Capital Fund (IGCF). The Government of Pakistan is also a shareholder (24.36%) in the Company while the remaining are listed as free float shares.</p> <p>The Group</p> <p>The Group is comprised of KEL and its subsidiaries, KE Venture Company (Private) Limited (KEVCL) and K-Solar (Private) Limited (K-Solar). KEVCL operates as a private limited company, primarily serving as the investment arm of KEL. Its scope of activities includes, but is not limited to, businesses related to electricity, energy, and associated products or services. K-Solar, also a private company and a direct subsidiary of KEVCL, focuses on businesses related to electricity and renewable energy. Additionally, K-Solar is engaged in promoting the conservation and efficient use of electricity, aligning with the broader goals of sustainability and energy efficiency.</p> <p>Short Term Sukuk (STS) Issuance – STS 30:</p> <p>KEL plans to raise an unsecured, rated, privately placed STS of up to PKR 7.0 bln (inclusive of green shoe option of PKR 1.0 bln.) The proceeds from the issue will be utilized to finance the working capital requirements of the Company. The structure is as follows:</p> <ul style="list-style-type: none"> • The tenor of the instrument is up to six (06) months from the date of drawdown. • The proposed profit rate is 3M KIBOR with an expected spread of up to 10 basis points (bps) per annum. • Profit is payable at the time of the maturity of the Sukuk along with the principal payment. <p>Rating Rationale:</p> <p>The ratings reflect KEL’s strategic position in powering Karachi - Pakistan's financial hub, and remains committed to ensuring an uninterrupted power supply to the city. However, ratings also take note of the approval of the Generation Tariff, with delay in approvals of the individual tariffs filed for Transmission, Distribution and Supply for the period FY24 to FY30 by NEPRA. The complete approval of the MYT (Multi Year Tariff) depends on the approval of all individual tariffs and accordingly, the finalization of Financial Statements post FY23 is dependent on the same as also disclosed by KEL on PSX. As per management, KEL is actively engaged with NEPRA to expedite the regulatory proceedings for the approval of the tariff.</p> <p>Moreover, KE has advanced its renewable energy initiatives, securing competitive tariff bids for its 100 MW Bela and 50 MW Winder projects, along with a 220 MW hybrid solar-wind project. The company has also completed the process for its 270 MW Sindh Solar Projects and submitted the Auction Evaluation Report. These developments reflect KE’s ongoing efforts to diversify its energy mix and reduce dependence on imported fuels, while also facilitating investor participation in the sector.</p> <p>According to the management, the Company’s cash flow position and debt profile have remained stable and are expected to be maintained in the future. Following the finalization of the MYT in alignment with KEL’s future investment plans, an increase in debt levels is anticipated. Moreover, management has indicated that all debt obligations are being met on schedule and will continue to be serviced in a timely manner.</p>
