stake of 26% in the Company. Having 46 years of operating experience, Etisalat is present in 16 countries and is one of the largest telecom operators in the world. The rating incorporates leading market positioning of PTCL in Fixed-Line Voice and Wireline Broadband & IPTV and Revenue Base Diversification

The Company's products and services include voice services, broadband internet, Fiber to the Home (FTTH) services, Charji wireless internet, Smart TV (IPTV) service, Smart Link App and Touch App, digital-content streaming through Starzplay, and enterprise-grade platforms like Smart Cloud, Tier-3 Certified Data Centers, Managed and Satellite Services. Ratings draw support from PTCL's leading market position in Fixed-line Voice and Wireline Broadband & IPTV. Given PTCL has embarked on a journey to migrate their existing customers to the premium Fiber to the Home (FTTH) services; the Company has successfully expanded its fiber footprint to 60,000km becoming country's second largest FTTH operator. The Company is focusing on the wholesale and corporate business segment to fuel growth in the future.

Medium business risk profile characterized by low cyclicality, highly capital intensive nature, and high barriers to entry

The ratings are also underpinned by medium business risk profile of the telecom sector owing to the non-cyclical nature of the industry, dependence of other operators on the infrastructure offered by the Company, and low sensitivity to inflationary pressures on operations conducted. Moreover, business risk also factors in capital-intensive and highly regulated nature of the sector serving as natural high barrier to entry for new entrants.

Sound Corporate Governance Framework

- In accordance with the provisions of Share Purchase Agreement between Government of Pakistan (GOP) and Etisalat Group as well as under the Articles of Associations of PTCL, the GOP has four nominees while strategic investor, Etisalat Group, has five nominees on the Board. All members are non-executive directors.
 - A formal and effective mechanism is put in place for an annual evaluation of the Board's own performance and of its committees.
 - Management team comprises qualified personnel and is supported by a well-designed organizational structure, which has been made significantly leaner through three (3) Voluntary Separation Schemes undertaken during the decade.
 - PTCL has implemented a SAP-based Enterprise Resource Planning system. Detailed and timely annual report disclosures bode well from a transparency perspective and provide important information to stakeholders.
