Zephyr Textile Limited

OVERVIEW OF THE INSTITUTION

RATING RATIONALE

Zephyr Textile Limited (ZTL) was established in 1999 as a private limited company which was later on converted into public limited company in 2004. The company is involved in the production and sale of grey & finished fabric, towels and made ups. The company is listed on the Pakistan Stock Exchange. Registered office of the company is in Lahore while weaving unit is situated at Balloki Bhai Pheru Road & towel unit is situated at district Kasur.

Profile of the Chairperson

Ms. Tahniat Mussaid is a graduate in Accountancy from UK and has worked in Barclays Bank for about 3 years after graduation.
She is not involved on every day matters of the company.

Profile of the CEO

Mr. Mussaid Hanif serves as the Chief Executive of the company. He has an MBA degree from LUMS and has over 20 years of experience in marketing, sales, and corporate management in some of prestigious textile companies in Pakistan.

Financial Snapshot:

Tier-1 Equity: end-FY19: Rs. 1.30b; end-FY18: Rs. 1.19b; end-FY17: Rs. 1.06b

Total Assets: end-FY19: Rs. 4.2b; end-FY18: Rs. 4.2b; end-FY17: Rs. 3.7b

Profit After Tax: end-FY19: Rs. 118m; end-FY18: Rs. 103m; end-FY17: Rs. 69m ZTL is a weaving and finishing unit and primarily operates in grey and finished fabric, towel and made-ups. Shareholding of the company is mainly vested with the sponsoring family which is actively involved in the day to day affairs of the company. The company's expansion plans in near future are expected to bode well in terms of sales and margins, amidst increase in leverage indicators. The ratings are constrained by comparatively high gearing indicators and limited scale of operations, leading to heightened competitive challenges for the company.

Shareholding mainly vested with sponsoring family with adequate experience in textile sector

Shareholding structure of the company is mainly vested with the sponsoring family with controlling stake of 85.15%. Remaining shareholding mainly rests with general public and other institutions. Mr. Mussaid Hanif (CEO) and Mr. Burhan Muhammad Khan (Executive Director) cumulatively hold 68.84% shares of the company. The Board of Directors of ZTL comprises seven members including two executive directors, three non-executive directors & two independent directors. Board meetings are held at least on a quarterly basis.

Product Portfolio – focused on textile products like grey & finished fabric, towel, made ups etc.

The company is mainly engaged in the production and sales of grey & finished fabric, towel & textile made ups. The grey fabric production facility comprises 199 Air Jet looms which can weave up to 84.62m square meters of grey fabric per annum. The towel manufacturing unit comprises 45 looms with production capacity of 4,835 tons per annum. The total processing capacity of towel dyeing and processing unit is 5,700 tons per annum. The company recorded Rs. 315m in revenue from the sale of men's unstitched finished fabric during FY19 (FY18: Rs. 398m, FY17: Rs. 186m). However, given relatively long credit period in the men fabric business, the company intends not to grow further in the said business. Meanwhile, considering demand dynamics, the company has started production of ladies fabric rather recently. In addition, the company has also started commercial dying of knitted fabric for other companies as well.

The power requirement of ZTL is fulfilled through gas-fired power generation facility which has a total capacity of 4.5 megawatts against the maximum demand of 4.2 megawatts. In addition to that, the company has also Wapda connection for electricity supply in case of emergency.

Sales growth in towel segment increased on the back of both quantity and price increase while fabric sales stood marginally lower owing to decline in quantity despite higher average sales price

During FY19, sales of the company increased to Rs. 5.09b (FY18: Rs. 4.25b, FY17: Rs. 3.72b). The sales are mainly segregated into two segments, Fabric and Towel. Despite higher average price, the revenue from fabric segment decreased slightly to Rs. 2.22b during FY19 (FY18: Rs. 2.27b, FY17: Rs. 2.31b) on account of lower sales quantity. Contribution of sales from grey fabric (local sales) continues to decline to Rs. 1.47b (FY18: Rs. 1.61b, FY17: Rs. 1.83b) on a timeline basis. The towel sales stood higher at Rs. 2.85b during FY19 (FY18: Rs. 1.88b, FY17: Rs. 1.42b). The sales of towel segment is the largest segment in the revenue mix that constituted 56.1% (FY18: 44.4%, FY17: 38.02%) of overall sales in FY19 mainly (99%) emanating from export sales.

While gross profit increased to Rs. 524m during FY19 (FY18: Rs. 466m, FY17: Rs. 409m), gross margins decreased slightly to 10.3% (FY18: 10.9%; FY17: 11.0%) during

FY19 mainly due to relatively higher raw material price (mainly local yarn) which increased to Rs. 174/lbs (FY18: Rs. 154/lbs, FY17: Rs. 140/lbs) during FY19. The operating expenses of the company increased to Rs. 235m (FY18: Rs. 182m; FY17: Rs. 221m) mainly on account of higher distribution & administration expenses. Distribution expenses stood higher primarily on account of increase in freight charges. The freight charges increased in line with higher quantum of export sales along with increase in fuel prices. Administrative expenses increased in line with inflationary impact and also due to provision for credit sales amounting Rs. 5.6m (FY18: nil) during FY19. The said provision was recognized owing to change in accounting treatment of overdue receivables with the adoption of IFRS 9. Barring lower unwinding of discount of Rs. 10.3m (FY18: Rs. 48.8m) related to previously restructured loans, the finance cost increased to Rs. 134m (FY18: Rs. 109.1m) mainly on account of higher average interest rates during FY19. It is pertinent to note that the effective interest rate of the company is relatively low owing to utilization of SBP refinancing (ERF & LTFF) which carry discounted rates. Net profit stood slightly higher at Rs. 118m (FY18: Rs. 103m; FY17: Rs. 69m) during FY19 while net profit margin remained at 2.3% (FY18: 2.4%; FY17: 1.8%).

Days receivables decreased despite some increase in trade debts

The fixed assets of the company stood at Rs. 1.96b (FY18: Rs. 2.00b, FY17: Rs. 2.02b) at end-FY19. The company carried out CAPEX of Rs. 131m (FY18: Rs. 87.7m, FY17: Rs. 437m) during FY19. The company installed EPT Water Treatment plant during the year in order to comply with environmental regulations required by international buyers. At end-FY19, ZTL held total inventory worth Rs. 932m (FY18: Rs. 1,070m; FY17: Rs. 905m) which comprised finished goods inventory worth Rs. 564m (FY18: Rs. 760m, FY17: Rs. 609m). Trade receivables of the company increased to Rs. 712m during FY19 (FY18: Rs. 659m, FY17: Rs. 350m) while receivable days reduced to 51 days during FY19 (FY18: 57 days, FY17: 34 days). It is pertinent to note that more than 97% of these receivables are having ageing between 3 to 6 months. Trade deposits, prepayments & balances with statutory authorities stood at Rs. 213m during FY19 (FY18: Rs. 189m, FY17: Rs. 197m) which mainly constituted sales tax refundable of Rs. 153m (FY18: Rs. 139m, FY17: Rs. 147m) from government. Cash & bank balances remained modest and stood at Rs. 57m at end-FY19 (FY18: Rs. 30m, FY17: Rs. 52m).

Coverages and liquidity ratios remained adequate during FY19 which shows stability

Funds from operations (FFO) remained adequate and stood at Rs. 310m (FY18: Rs. 340m; FY17: Rs. 298m). In order to meet the working capital requirements, the company relies on short term borrowing which increased to Rs. 1.25b by end-FY19 (FY18: Rs. 1.16b; FY17: Rs. 982m) in line increase in sales. FFO to total debt ratio decreased to 18.0% (FY18: 19.5%; FY17: 17.3%) owing to slight decrease in FFO while FFO to long-term debt improved to 65.6% (FY18: 58.4%; FY17: 40.1%) on the back of declining trend in long-term borrowings. The debt service coverage ratio improved to 1.57x during FY19 (FY18: 1.41x; FY17: 0.95x). The current ratio remained stable at 1.10x (FY18: 1.10x; FY17: 1.09x). Inventory plus trade receivables to short-term borrowings decreased to 1.32x during FY19 (FY18: 1.49x; FY17: 1.28x).

Manageable leverage indicators with adequate equity base

Total equity base stood higher at Rs. 1.30b by end-FY19 (FY18: Rs. 1.19b; FY17: Rs. 1.06b) on the back of profit retention. Long term loan facility stood lower at Rs. 472m (FY18: Rs. 581m, FY17: Rs. 744m) on account of repayment of borrowings. During FY19, overall loan facilities remained at Rs.1.72b (FY18: Rs. 1.74b, FY17: Rs. 1.72b). Debt leverage decreased, though remained high at 1.99x (FY18: 2.24x, FY17: 2.19x) while gearing decreased to 1.32x (FY18: 1.46x, FY17: 1.62x) by end-FY19.

Plans for expansion in weaving and dying & stitching segments

The company plans major CAPEX of Rs. 1.27b during FY20. The said financing is proposed at debt to equity ratio of 70:30. The company intends to install 70 new looms worth Rs. 750m including 62 Picanol AirJet looms and 8 Jacquard looms while 32 existing Tsudakoma looms will be scrapped. In addition, the company is also planning to install

VIS Credit Rating Company Limited

new Yarn as well as Knit fabric dying, finishing & stitching machines. This will help in generating higher export orders thereby improving profit margins & sales of the company. The company is projected to generate sales of around Rs. 5.8b during FY20 while additional revenues from CAPEX would fully materialize during FY21 that are projected to reach Rs. 7.94b. Resultantly, leverage indictors are expected to increase while coverages are projected to remain adequate.

ISSUE/ISSUER RATING SCALE & DEFINITIONS

Annexure II

VIS Credit Rating Company Limited

RATING SCALE & DEFINITIONS: ISSUES / ISSUERS

Medium to Long-Term

AAA

Highest credit quality; the risk factors are negligible, being only slightly more than for risk-free Government of Pakistan's debt.

AA+, AA, AA-

High credit quality; Protection factors are strong. Risk is modest but may vary slightly from time to time because of economic conditions.

A+, A, A-

Good credit quality; Protection factors are adequate. Risk factors may vary with possible changes in the economy.

BBB+, BBB, BBB-

Adequate credit quality; Protection factors are reasonable and sufficient. Risk factors are considered variable if changes occur in the economy.

BB+, BB, BB-

Obligations deemed likely to be met. Protection factors are capable of weakening if changes occur in the economy. Overall quality may move up or down frequently within this category.

B+, B, B-

Obligations deemed less likely to be met. Protection factors are capable of fluctuating widely if changes occur in the economy. Overall quality may move up or down frequently within this category or into higher or lower rating grade.

ccc

Considerable uncertainty exists towards meeting the obligations. Protection factors are scarce and risk may be substantial.

CC

A high default risk

c

A very high default risk

D

Defaulted obligations

Short-Term

A-1+

Highest certainty of timely payment; Short-term liquidity, including internal operating factors and /or access to alternative sources of funds, is outstanding and safety is just below risk free Government of Pakistan's short-term obligations.

A-1

High certainty of timely payment; Liquidity factors are excellent and supported by good fundamental protection factors. Risk factors are minor.

Δ-2

Good certainty of timely payment. Liquidity factors and company fundamentals are sound. Access to capital markets is good. Risk factors are small.

Δ-3

Satisfactory liquidity and other protection factors qualify entities / issues as to investment grade. Risk factors are larger and subject to more variation. Nevertheless, timely payment is expected.

В

Speculative investment characteristics; Liquidity may not be sufficient to ensure timely payment of obligations.

C

Capacity for timely payment of obligations is doubtful.

Rating Watch: VIS places entities and issues on 'Rating Watch' when it deems that there are conditions present that necessitate re-evaluation of the assigned rating(s). Refer to our 'Criteria for Rating Watch' for details. www.vis.com.pk/images/criteria_watch.pdf

Rating Outlooks: The three outlooks 'Positive', 'Stable' and 'Negative' qualify the potential direction of the assigned rating(s). An outlook is not necessarily a precursor of a rating change. Refer to our 'Criteria for Rating Outlook' for details.www.vis.com.pk/ images/criteria_outlook.pdf

(SO) Rating: A suffix (SO) is added to the ratings of 'structured' securities where the servicing of debt and related obligations is backed by some sort of financial assets and/or credit support from a third party to the transaction. The suffix (SO), abbreviated for 'structured obligation', denotes that the rating has been achieved on grounds of the structure backing the transaction that enhanced the credit quality of the securities and not on the basis of the credit quality of the issuing entity alone.

(bir) Rating: A suffix (bir) is added to the ratings of a particular banking facility obtained by the borrower from a financial institution. The suffix (bir), abbreviated for 'bank loan rating' denotes that the rating is based on the credit quality of the entity and security structure of the facility.

'p' Rating: A 'p' rating is assigned to entities, where the management has not requested a rating, however, agrees to provide informational support. A 'p' rating is shown with a 'p' subscript and is publicly disclosed. It is not modified by a plus (+) or a minus (-) sign which indicates relative standing within a rating category. Outlook is not assigned to these ratings. Refer to our 'Policy for Private Ratings' for details. www.vis.com.pk/images/policy_ratings.pdf

'SD' Rating: An 'SD' rating is assigned when VIS believes that the ratee has selectively defaulted on a specific issue or obligation but it will continue to meet its payment obligations on other issues or obligations in a timely manner.
