FINCA Microfinance Bank Limited

OVERVIEW OF THE INSTITUTION

RATING RATIONALE

Rating Rationale

FINCA
Microfinance Bank Limited
(FINCA MFB) previously
Kashf Microfinance Bank
Limited, was incorporated in
June, 2008 as a public limited
company under the
Companies Ordinance, 1984.
The ultimate holding
company of FINCA MFB is
FINCA International Inc., a
not-for-profit corporation
incorporated in Washington
D.C., U.S.A.

Profile of Chairman

Ms. Zarlasht Wardak serves as regional director of FINCA International (Middle East & South Asia). She carries over 15 years of experience in executive financial management.

Profile of CEO

Mr. Mudassar Aqil joined FINCA MFB as CEO in 2011. Prior to joining FINCA, he worked for 14 years at a leading commercial bank in Pakistan and the United States. He also serves as a director on the Board of Pakistan Microfinance Network.

Financial Snapshot

Net equity: FY18: 4.03b; FY17: Rs. 3.3b

Net profit: FY18: Rs. 956.5m; FY17: Rs. 854.8m

The assigned ratings of FINCA Microfinance Bank (FINCA MFB) incorporate association of the bank with FINCA International Inc., a global microfinance organization operating in 20 subsidiaries, including Pakistan. FINCA MFB continues to receive support from its parent through transfer of technical expertise emanating from FINCA's global experience.

20 subsidiaries, including Pakistan. FINCA MFB continues to receive support from its parent through transfer of technical expertise emanating from FINCA's global experience. The ratings also take into account sizeable loan book, adequate asset quality and improved profitability of the bank. FINCA MFB has successfully embarked upon various IT initiatives which are expected to bring operational efficiencies, going forward.

Credit Risk: During FY18, loan book of the bank grew by 38% and amounted to Rs. 20.9b (FY17: Rs. 15.1b) against the target of Rs. 27b. Individual lending continues to remain forte of the bank, while average loan ticket size has also increased on a timeline basis. The bank's loan book reflects an adequate diversification of agricultural, livestock and enterprise loans and among Equal Monthly Installment (EMI) and Bullet repayment structures. During FY18, asset quality indicators slightly deteriorated as gross infection increased to 1.9% (FY17: 1.5%) and incremental infection amounted to 3.0% (FY17: 2.9%). As a result, the management has embarked upon various risk mitigation initiatives including post-disbursement screening mechanism, pre-disbursement screening of SE products, deployment of regional compliance officers, 90-day write-off structure; impact of the same will be seen over time.

Liquidity & Funding: Deposits continue to be the primary source of funding for the bank that increased to Rs. 23.7b (FY17: Rs. 19.2b) by end-FY18. Deposit mix largely remained the same with term deposits comprising more than two-third of the deposit base. During FY18, liquidity profile of the bank improved owing to decline in concentration in deposit base and higher liquid assets carried on the balance sheet. The granularity in deposits exhibited a positive trend given the proportion of higher size deposits reduced on a timeline basis. However, stickiness in deposits coupled with maintained granularity in deposit base is required to mitigate the impact of large withdrawals.

Capitalization: Tier-1 equity of the bank augmented to Rs. 4.03b (FY17: Rs. 3.3b) on account of profit retention, however as a result of expansion in the microcredit portfolio along with decrease in investments, Capital Adequacy Ratio (CAR) of the bank decreased to 15.9% (FY17: 18.6%) by end-FY18. The bank is exploring various options to strengthen its CAR while expanding micro-credit portfolio.

Profitability: With decrease in return on mark-up bearing assets and marginal increase in cost of funds, spread of the bank declined to 19.5% (FY17: 20.2%) during FY18. However, sizeable growth in microcredit portfolio led to higher net mark-up income. Despite lower operational self-sufficiency, the bank reported a higher profit after tax of Rs. 956.5m (FY17: Rs. 854.8m) during FY18.

Information Technology: FINCA MFB is focusing towards leveraging technology for improving efficiencies and has embarked upon various IT initiatives including digital financial services project, upgradation of IT infrastructure, implementation of new core banking software and business intelligence solution during the period under review.

FINCA Microfinance Bank (FINCA MFB)

ISSUE/ISSUER RATING SCALE & DEFINITIONS

Appendix II

VIS Credit Rating Company Limited

RATING SCALE & DEFINITIONS: ISSUES / ISSUERS

Medium to Long-Term

AAA

Highest credit quality; the risk factors are negligible, being only slightly more than for risk-free Government of Pakistan's debt.

AA+, AA, AA-

High credit quality; Protection factors are strong. Risk is modest but may vary slightly from time to time because of economic conditions.

A+, A, A-

Good credit quality; Protection factors are adequate. Risk factors may vary with possible changes in the economy.

BRR+ BRR BRR-

Adequate credit quality; Protection factors are reasonable and sufficient. Risk factors are considered variable if changes occur in the economy.

BB+, BB, BB-

Obligations deemed likely to be met. Protection factors are capable of weakening if changes occur in the economy. Overall quality may move up or down frequently within this category.

B+, B, B-

Obligations deemed less likely to be met. Protection factors are capable of fluctuating widely if changes occur in the economy. Overall quality may move up or down frequently within this category or into higher or lower rating grade.

ccc

Considerable uncertainty exists towards meeting the obligations. Protection factors are scarce and risk may be substantial.

cc

A high default risk

C

A very high default risk

D

Defaulted obligations

Rating Watch: VIS places entities and issues on 'Rating Watch' when it deems that there are conditions present that necessitate re-evaluation of the assigned rating(s). Refer to our 'Criteria for Rating Watch' for details. www.vis.com.pk/images/criteria_watch.pdf

Rating Outlooks: The three outlooks 'Positive', 'Stable' and 'Negative' qualify the potential direction of the assigned rating(s). An outlook is not necessarily a precursor of a rating change. Refer to our 'Criteria for Rating Outlook' for details.www.vis.com.pk/ images/criteria_outlook.pdf

(SO) Rating: A suffix (SO) is added to the ratings of 'structured' securities where the servicing of debt and related obligations is backed by some sort of financial assets and/or credit support from a third party to the transaction. The suffix (SO), abbreviated for 'structured obligation', denotes that the rating has been achieved on grounds of the structure backing the transaction that enhanced the credit quality of the securities and not on the basis of the credit quality of the issuing entity alone.

Short-Term

Δ-1+

Highest certainty of timely payment; Short-term liquidity, including internal operating factors and /or access to alternative sources of funds, is outstanding and safety is just below risk free Government of Pakistan's short-term obligations.

A-1

High certainty of timely payment; Liquidity factors are excellent and supported by good fundamental protection factors. Risk factors are minor.

A-2

Good certainty of timely payment. Liquidity factors and company fundamentals are sound. Access to capital markets is good. Risk factors are small.

A-3

Satisfactory liquidity and other protection factors qualify entities / issues as to investment grade. Risk factors are larger and subject to more variation. Nevertheless, timely payment is expected.

B

Speculative investment characteristics; Liquidity may not be sufficient to ensure timely payment of obligations.

C

Capacity for timely payment of obligations is doubtful.

(blr) Rating: A suffix (blr) is added to the ratings of a particular banking facility obtained by the borrower from a financial institution. The suffix (blr), abbreviated for 'bank loan rating' denotes that the rating is based on the credit quality of the entity and security structure of the facility.

'p' Rating: A 'p' rating is assigned to entities, where the management has not requested a rating, however, agrees to provide informational support. A 'p' rating is shown with a 'p' subscript and is publicly disclosed. It is not modified by a plus (+) or a minus (-) sign which indicates relative standing within a rating category. Outlook is not assigned to these ratings. Refer to our 'Policy for Private Ratings' for details. www.vis.com.pk/images/policy ratings.pdf

'SD' Rating: An 'SD' rating is assigned when VIS believes that the ratee has selectively defaulted on a specific issue or obligation but it will continue to meet its payment obligations on other issues or obligations in a timely manner.
