Aisha Steel Mills Limited (ASL)

OVERVIEW
OF THE
INSTITUTION

The company was formed to carry out its principal business of manufacturing and selling cold rolled steel in coils and sheets. The company has an annual capacity of 730,000 MT including CRC and HDGC.

ASML produces Cold Rolled Coils (CRC) and Galvanized Iron (GI) of international quality standards from imported Hot Rolled Coils (HRC). Company's products are used in automotive, construction, and engineering sectors as a premier raw material for further processing into a wide variety of value-added products.

RATING RATIONALE

Aisha Steel Mills Limited was incorporated in 2005 and is one of the three major flat steel players in the country. The company currently has a production capacity of 700,000 MT per annum which is divided into 450,000 MT for Cold Rolled Coils (CRC) and 250,000 MT for Hot Dipped Galvanized Coils (HDGC). As per management, the company is undertaking a project to enhance operational efficiency and raise production capacity to 850,000MT. The plan is expected to be completed in the near future and has a total cost of Rs. 3.2b out of which Rs. 2b will be financed by debt.

Rationale for revision in rating outlook

The revision in outlook reflects change in VIS sector outlook on the back of elevated business risk due to import restrictions, limited raw material coverage, soaring raw material prices, exchange rate volatility, and higher interest rates, resulting in inflationary pressures and a decline in demand in the automobile, construction and infrastructure development projects. As a result, the financial risk profile of companies across the sector remains under pressure in the medium term.

The ratings will remain under Rating Watch based on the unfolding of the economic and market developments going forward and updated over time line according to availability of financial information.

Rating Outlooks: The three outlooks 'Positive', 'Stable' and 'Negative' qualify the potential direction of the assigned rating(s). An outlook is not necessarily a precursor of a rating change. Refer to our 'Criteria for Rating Outlook' for details. www.vis.com.pk/images/criteria_outlook.pdf
