### **Rating Factors Scores**

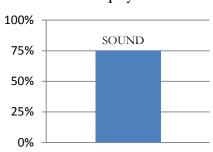

# Regulatory Requirements

### Internal & External Control Framework

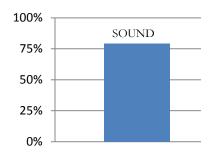

# Client Relationship & Fairplay

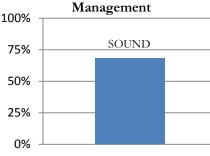

- Board Level corporate governance is considered sound with requisite committees and independents directors except in chair of BoD & BAC position.
- 1/3<sup>rd</sup> independent directors is consistent with international best practices.
- Internal control system has satisfactory compliance level.
- Further strengthening of control levels may be achieved through sharing of certain policies with staff and customers as well as more frequent reviews of order recording.
- System for customers order execution and its reporting is adequate.
- Client service maybe enhanced further through greater access of clients to their portfolio positions and research reports.

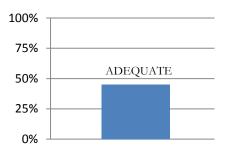

HR & Infrastructure

Compliance & Risk
Management

#### Financial Management

- The organizational structure is well defined.
- Offsite backup at third party and strengthening the Business Continuity Plan will address unexpected contingencies.
- Control functions are autonomous and compliance of regulations is considered sound.
- Room for strengthening of customer credit risk evaluation system exists.
- Increased activity in advisory desk will aid in diversification of income.
- Going forward profitability would be a function of improving operational efficiency and maintenance of sound capitalization level.
