A.A. Spinning Mills Limited

OVERVIEW OF THE INSTITUTION RATING RATIONALE

A.A. Spinning Mills Limited (AASML) was incorporated in October 2003 and commenced commercial operations in 2006. The principal business activity of the company is manufacturing and sale of yarn.

A.A. Spinning Mills Limited (AASML) is a mid-sized spinning unit. Shareholding is vested with the sponsoring family who is actively involved in day-to-day operations of the company. The assigned ratings take into account AASML association with the Ibrahim Group, a large conglomerate with presence in textile and financial services. The ratings incorporate improvement in sales, margins and profitability driven by volumetric increase and higher yarn prices. Given low level of long-term borrowings, debt service coverage ratio has remained adequate with increasing cash flows. However, the ratings are constrained by nearly full capacity utilization, relatively high leverage indicators vis-à-vis peers, vulnerability of spinning sector to raw material prices and any adverse changes in regulatory duties. The ratings remain sensitive to maintenance of gearing levels within acceptable limits.

Profile of the Chairman/CEO

Mr. Asim Yaseen is the Chairman of Board of Director at AASML. He previously held directorship in Ibrahim Fibers Limited.

Mr. Atif Yaseen has been serving AASML as the Chief Executive Officer (CEO) since 2006. He previously held directorship in Ibrahim Fibers Limited and MCB Bank Limited.

Optimal capacity utilization; expansion plan shelved due to unfavorable economic conditions: The company largely produces 14s to 30s count yarn. Total installed and operational spindles of AASML were 50,544 (FY18: 50,544) at end-FY19. Converted to 20s count Kgs, capacity utilization has remained optimal at 98% (FY18: 99%) during FY19. Production is planned in accordance with the market demand. The management’s plan to expand spinning operations, entailing addition of 39,185 spindles in first phase and 11,839 spindles in second phase, has been put on hold due to unfavorable economic scenario of higher interest rates and local currency depreciation. Production is supported by capital expenditure carried out to improve operational performance of spindles.

Financial Snapshot

Total Equity: end-FY19: Rs. 1.81b; end-FY18: Rs. 1.66b; end-FY17: Rs. 1.55b

Assets: end-FY19: Rs. 4.43b; end-FY18: Rs. 3.92b; end-FY17: Rs. 3.65b

Profit After Tax: FY19: Rs. 150.8m; FY18: Rs. 105.8m; FY17: Rs. 71.7m

Profitability underpinned by higher sales and increasing margins: During FY19, the company reported net sales of Rs. 5.7b (FY18: Rs. 4.5b) driven by volumetric increase in local sale of yarn along with increase in yarn prices. The company sold 372,945 bags locally during FY19 vis-à-vis 358,131 in the preceding year while only 742 bags (FY18: 2,586 bags) were exported. Average local yarn price fetched Rs. 14,875/Bag (FY18: Rs. 12,268/Bag) during FY19, while average export sale price stood higher at Rs. 15,982/Bag (FY18: Rs. 13,317/Bag). The contribution of export sales to the total sales mix has remained minimal at 0.2% (FY18: 0.8%). Other materials sale comprising zippers, amounted to Rs. 42.3m (FY18: Rs. 33.6m) during FY19. Customer concentration has remained almost the same, as sales to top ten customers accounted for 35% (FY18: 34%) of the total sales during FY19.

Coronavirus to result in uncertainty in textile sector dynamics: The revision in rating outlook reflects prevailing uncertainty in textile sector dynamics due to coronavirus outbreak, prolonged lockdown, overall contraction in demand, sharp fall in cotton prices and challenging economic environment. It is expected that the entire value chain of the textile industry will be impacted by these developments. Status of the assigned rating is therefore uncertain as an event of deviation from expected trend has occurred; additional information will be necessary to take any further rating action, warranting a ‘Rating Watch-Developing’ status. Given the low leveraged capital structure, it is expected that ratings will remain stable post recovery of the ongoing situation; nevertheless, as scenario is evolving rapidly, VIS will closely monitor and will accordingly take action to resolve the outlook status.
