FM Express (FME)

OVERVIEW OF THE INSTITUTION	RATING RATIONALE
<p>FM Express was incorporated in 2001 as a Proprietorship concern of Mr. Khawaja Farrukh Akbar. Registered office of the firm is in Multan.</p> <p>Profile of Proprietor & CEO Mr. Khawaja Farrukh Akbar is proprietor and Chief Executive of the firm. He has over 12 years' of experience managing the affairs of the firm.</p>	<p>FM Express (FME) was incorporated in 2001 as a Proprietorship concern primarily engaged in the business of transportation services in Pakistan. The firm is one of the biggest transporters in Pakistan which provides transportation services to almost all major cities. The firm operates around 25 bus terminals in various cities and owns fleet of more than 350 buses & Hi-Roof vans.</p> <p>FME mainly provides intra city transportation services to commuters in all major cities. The firm also provides parcel delivery services to customers from its existing fleets & terminals. The firm is the biggest transporter in North region of Pakistan. In order to remain competitive with other major transporters like Daewoo, Niazi Express, etc. the company also provides premium bus services to customers which include complimentary snacks, audio and videos services in the buses and terminals.</p> <p>The firm normally uses combination of equity and long term loan to purchase new vehicles and repays the loan within 3 years. However, the firm then replaces each vehicle after 5 years with new state of the art transport in order to provide premium services and remain top tier transporter. Seat utilization on all routes remained above 80% during the last 3 years. The firm even operates one or two vehicles per hours on routes which have high customer flow. The firm considers that there is no major threat to their business from other transporters because of their niche since the firm keeps on replacing its old vehicles with new ones while continuously improving services to customers.</p> <p>Increase in revenue in the past years has largely been the function of growth in passenger occupancy ratio. Gross margins were depressed due to higher fuel costs, though administrative expenses remained largely stable. Increase in finance cost on a timeline basis was noted on account of higher utilization of long-term financing. The firm finances purchase of new vehicles with long term loan of 3 years along with equity while working capital requirements are financed from internal cash flows of the company. Trade receivables remain modest as tickets are mostly sold on a cash basis.</p> <p>The revision in rating outlook reflects prevailing uncertainty in transportation sector due to closure of all motorways and public transport in view of coronavirus outbreak and following lockdown. Status of the assigned rating is therefore uncertain as an event of deviation from expected trend has occurred; additional information will be necessary to take any further rating action, warranting a 'Rating Watch' status. As the FME is entirely dependent on intra-city transportation for revenue generation, ratings are being placed on 'Negative' outlook. Nevertheless as scenario is evolving rapidly, VIS will closely monitor and will accordingly take action to resolve the outlook status.</p>

ISSUE/ISSUER RATING SCALE & DEFINITIONS

Appendix II

VIS Credit Rating Company Limited

RATING SCALE & DEFINITIONS: ISSUES / ISSUERS

Medium to Long-Term

AAA

Highest credit quality; the risk factors are negligible, being only slightly more than for risk-free Government of Pakistan's debt.

AA+, AA, AA-

High credit quality; Protection factors are strong. Risk is modest but may vary slightly from time to time because of economic conditions.

A+, A, A-

Good credit quality; Protection factors are adequate. Risk factors may vary with possible changes in the economy.

BBB+, BBB, BBB-

Adequate credit quality; Protection factors are reasonable and sufficient. Risk factors are considered variable if changes occur in the economy.

BB+, BB, BB-

Obligations deemed likely to be met. Protection factors are capable of weakening if changes occur in the economy. Overall quality may move up or down frequently within this category.

B+, B, B-

Obligations deemed less likely to be met. Protection factors are capable of fluctuating widely if changes occur in the economy. Overall quality may move up or down frequently within this category or into higher or lower rating grade.

CCC

Considerable uncertainty exists towards meeting the obligations. Protection factors are scarce and risk may be substantial.

CC

A high default risk

C

A very high default risk

D

Defaulted obligations

Short-Term

A-1+

Highest certainty of timely payment; Short-term liquidity, including internal operating factors and /or access to alternative sources of funds, is outstanding and safety is just below risk free Government of Pakistan's short-term obligations.

A-1

High certainty of timely payment; Liquidity factors are excellent and supported by good fundamental protection factors. Risk factors are minor.

A-2

Good certainty of timely payment. Liquidity factors and company fundamentals are sound. Access to capital markets is good. Risk factors are small.

A-3

Satisfactory liquidity and other protection factors qualify entities / issues as to investment grade. Risk factors are larger and subject to more variation. Nevertheless, timely payment is expected.

B

Speculative investment characteristics; Liquidity may not be sufficient to ensure timely payment of obligations.

C

Capacity for timely payment of obligations is doubtful.

Rating Watch: VIS places entities and issues on 'Rating Watch' when it deems that there are conditions present that necessitate re-evaluation of the assigned rating(s). Refer to our 'Criteria for Rating Watch' for details. www.vis.com.pk/images/criteria_watch.pdf

Rating Outlooks: The three outlooks 'Positive', 'Stable' and 'Negative' qualify the potential direction of the assigned rating(s). An outlook is not necessarily a precursor of a rating change. Refer to our 'Criteria for Rating Outlook' for details. www.vis.com.pk/images/criteria_outlook.pdf

(SO) Rating: A suffix (SO) is added to the ratings of 'structured' securities where the servicing of debt and related obligations is backed by some sort of financial assets and/or credit support from a third party to the transaction. The suffix (SO), abbreviated for 'structured obligation', denotes that the rating has been achieved on grounds of the structure backing the transaction that enhanced the credit quality of the securities and not on the basis of the credit quality of the issuing entity alone.

(blr) Rating: A suffix (blr) is added to the ratings of a particular banking facility obtained by the borrower from a financial institution. The suffix (blr), abbreviated for 'bank loan rating' denotes that the rating is based on the credit quality of the entity and security structure of the facility.

'p' Rating: A 'p' rating is assigned to entities, where the management has not requested a rating, however, agrees to provide informational support. A 'p' rating is shown with a 'p' subscript and is publicly disclosed. It is not modified by a plus (+) or a minus (-) sign which indicates relative standing within a rating category. Outlook is not assigned to these ratings. Refer to our 'Policy for Private Ratings' for details. www.vis.com.pk/images/policy_ratings.pdf

'SD' Rating: An 'SD' rating is assigned when VIS believes that the ratee has selectively defaulted on a specific issue or obligation but it will continue to meet its payment obligations on other issues or obligations in a timely manner.
